# Regional Tidal Marsh Inventory Data Sheet

Please fill out this form as completely as possible. Your responses will help populate a searchable database, located at <http://gulfofmaine.fws.gov>, of potential and existing tidal marsh restoration projects in the Gulf of Maine watershed. Lines for additional note are optional, but will help clarify your responses, especially when "other" is chosen. If your project can be broken down into phases, please submit one form per phase. Thank you for your participation.
